We had the pleasure, yesterday, of a visit from Mr. A. A. Gilbert, editor of the Sumter (S. C.) Watchias. THE BALL of the Penian Brotherh od was a perfect success, that was enjoyed by all present with a decided feeling of satisfaction. MULLER's first-lass band discoursed some of their finest masic, and the supper for nished by Messrs. Frankry & Francy was a seasonable treat. All retired at a reasonable hour, determined to enjoy all'like entertainments.

Our music-Loving readers should pay parliamer atten tion to the card of our friend, THOMAS P. O'NEALE, who is prepared to give instructions on the piane and organ, well as in vocal music. As a first-class organist, M. O'NEGE will be remembered in connection with Grace Church, of this dity. We can curselves wouch for his talent as a planist and vocalist-having, many a time during the war, had our spirits cheered by the combined exercise of his skill as a performer and singer. Who soever can hear our triend Tom play and sing, and he unmoved, is fit for strategeins and wiles, and should not be left alone where affver spoons are lying loose. If you want your daughter or son to take a good course of music lessons, send for Mr. O'NEALE.

FREEMAN, lunds & Co. We were present, with a number of friends, on a visit to this establishment, where, as will be seen by advertisement, boiler-making, blacksmith work, and finishing will be executed with disputch. In connection with this establish out is a fine foundry, under the superintendence of Mi. Ens. WORTH, long connected with that business. of the Edisto and Ashley Canal Company was held yesterday at the City Hall, for the purpose of devising ways and means for mening this work at an early da. It withstanding the depressed state of money authors in the Sate, styles deemed advisable to lose no further than in the commence of or this important work, but to proceed as econ as possible in its construction. Capt. C. E. CHICHESTER Was elected superintendent of the work, and an instalment of one dollar per share was called in. An application for an amendir at to the charter was also determined upon, together with other matters of interest to the company. We deem the com-pany sugularly fortunate in the selection as superin tendent of so competent and energelic a man as Captain CHICHESTER, who possesses every quality ation for such a work. If he puts but half the dor I perseverance and determination into the laudable a arraise that he did upon a previous occasion, in which the welfare of the city was tlso infimately connected, but which we do not care to mention, it being still fresh in the recoiled tion of all our citizens, we have no fear of the result. also possesses administrative talent, besides the abilit discipline Inchesary qualifications in superintending such a work,
